

1276..... **CSEM—Optimizing EM data acquisition for continental shelf exploration**, N. Barker, J. P. Morten, and D. Shantsev

1286..... **Governance—The history of SEG governance reform**, S. Harris

1288..... **Case study—Review of pore pressure prediction challenges in high-temperature areas**, R. Swarbrick

Special section: Passive seismic and microseismic—Part 1

1296..... **Introduction to this special section: Passive seismic and microseismic—Part 1**, B. Goodway

1300..... **Tracking microseismic signals from the reservoir to surface**, S. Maxwell, D. Raymer, M. Williams, and P. Primiero

1310..... **Observations and implications from simultaneous recording of microseismic surface and borehole data**, D. Diller and S. Gardner

1318..... **High-quality surface microseismic data illuminates fracture treatments: A case study in the Montney**, B. Birkelo, K. Cieslik, B. Witten, S. Montgomery, B. Artman, D. Miller, and M. Norton

1326..... **Path effects in subsurface microseismic monitoring**, C. Hogan and D. Eaton

1330..... **Quality assessment of microseismic event locations and traveltimes using a multiplet analysis**, K. Kocon and M. van der Baan

1338..... **Potential use of resonance frequencies in microseismic interpretation**, J. Tary and M. van der Baan

1348..... **Geomechanical modeling of rock fracturing and associated microseismicity**, D. Chorney, P. Jain, M. Grob and M. van der Baan

Special section: IQ Earth

1356..... **IQ Earth Forum: 21st-century interpretation**, E. Bianco

1362..... **Quantitative interpretation of the McKay oil sands thermal area: Canadian case study**, L. Bellman, A. Knowles, and R. Pak

1374..... **Integrating interpretation expertise and objective data analysis in 3D interpretation**, J. Henderson, G. Paton, B. Froner, J. Lowell, and M. Ackers

1382..... **3D joint inversion of geophysical data with Gramian constraints: A case study from the Carrapateena IOCG deposit, South Australia**, M. Zhdanov, A. Gribenko, G. Wilson, and C. Funk
