

814..... **Workshop—The state of the science and vision of the future: Report from the Hydrogeophysics Workshop**, R. Knight, J. Cannia, J. Doetsch, J. Fleming, B. Grimm, D. Heinze, C. Hobza, J. Huisman, J. Irving, A. Kemna, A. Menghini, B. Minsley, S. Moysey, F. Nguyen, J. Nyquist, A. Parsekian, D. Rucker, K. Singha, B. Smith, and J. van der Kruk

828..... **Student event—Major SEG China student event held**, G. Liu

830..... **Unconventional resources—Value of URTeC for geophysicists**, K. Beeney

Special section: Hydrogeophysics

740..... **An introduction to this special section: Hydrogeophysics**, R. Miller and K. Singha

742..... **Regional hydrostratigraphy and insights into fluid flow through a clay aquitard from shallow seismic reflection data**, A. Pugin, S. Pullan, and M. Duchesne

750..... **The need to adapt the exploration model from the oil patch to contaminated-site characterization: A case from Hill AFB, Utah, USA**, J. Bradford and E. Babcock

758..... **Cross-borehole flow profiling—delineating subsurface flow paths within a geophysically defined aquifer framework**, F. Paillet

766..... **Hydrogeophysical data integration at larger scales: Application of Bayesian sequential simulation for the characterization of heterogeneous alluvial aquifers**, P. Ruggeri, J. Irving, K. Holliger, E. Gloaguen and R. Lefebvre

776..... **Efficient electrical hydrogeophysical monitoring through cloud-based processing, analysis, and result access**, R. Versteeg and D. Johnson

784..... **Strategies for characterization of fractured rock using cross-borehole electrical tomography**, J. Robinson, L. Slater, T. Johnson, and A. Binley

792..... **Using geophysics to map areas of potential groundwater discharge into Ringkøbing Fjord, Denmark**, J. Kinnear, A. Binley, C. Duque, and P. Engesgaard

798..... **Airborne lidar on the Alaskan North Slope: Wetlands mapping, lake volumes, and permafrost features**, J. Paine, J. Andrews, K. Saylam, T. Tremblay, A. Averett, T. Caudle, T. Meyer, and M. Young

806..... **Feasibility of estimating groundwater storage changes in western Kansas using Gravity Recovery and Climate Experiment (GRACE) data**, Q. Wang, C. Chen, B. Chen, J. Xia, and J. Du
