

Table of Contents

Special Section: Iran

- 468.....Introduction to this special section: Iran, S. Zadeh and D. J. Foster
- 470.....The state of the petroleum industry in Iran, S. Zadeh
- 474.....3D seismic interpretation and structural analysis of Z Field, eastern Persian Gulf, M. Davarpanah and J. Akhlaghi
- 480.....Resolution enhancement of seismic data using spectral modeling based on dominant Ricker components and separable nonlinear least squares, M. G. Mamasani, N. S. Manaman, K. Kazemi, and M. Mirzakhani
- 487..... Estimation of acoustic-impedance model by using model-based seismic inversion on the Ghar Member of Asmari Formation in an oil field in southwestern Iran, M. Jafari, R. Nikrouz, and A. Kadkhodaie
- 493 Velocity-model estimation with NIP-wave tomography inversion – A real data example, H. Shahsavani
- 499..... Challenges of seismic imaging in complex media around Iran, from Zagros overthrust in the southwest to Gorgan Plain in the northeast, M. Soleimani

- 507.....KFUPM-KAUST Red Sea model: Digital viscoelastic depth model and synthetic seismic data set, A. A. Al-Shuhail, W. A. Mousa, and T. Alkhalifah
- 512The two faces of NMO, B. Schwarz and D. Gajewski
- 518A novel strategy to enhance the English reading aptitude of young multilingual professionals in the petroleum industry, S. Al-Dossary
- 523 Geophysical Tutorial: Seismic rock physics, A. Amato del Monte
- 526..... Conference Preview: URTeC 2017 to focus on cross-disciplinary collaboration, S. Maxwell
